

Bridge Deck Rollforming Line

This is a continuous and high performance bridge deck rollforming line with a post-cut operation. All 4 profiles (2", 2-1/2", 3" and 4") are rollformed, end formed in the press, and cut-to-length utilizing quick changeovers from one profile to the other using Rafted Tops (Cassettes) with quick coupling disconnects.

Key Features:

- 20K Single Ended Uncoiler with Coil Car, hydraulically powered full time driven with mandrel expansion
- Hydraulically powered UP/DOWN threading table to assist in threading raw material into the system
- Length control system helps the operator set length and quantity
- 28 Pass Rafted Rollformer with gear box drive at every station
- Stationary Hydraulic Cut-Off Press suitable for 'Stop-and-Go' cut and form operation
- 20ft non-powered run out Roller Exit Conveyor pushes the completed parts out
